Dear Sir:

I have arranged with the city recreation director here for your team to practice on the negro base-ball diamond here, which is located on the city play-ground just opposite the city base-ball park.

I have also arranged for your team to play all of its game in the park which the Detroit Tigers train. The Detroit team breaks camp here on April 6th and your team will be able to play as many games as you can schedule.

The diamond on which you will practice will need a little conditioning. Do you want me to see about getting it in condition
